## **From the CEOs of the Telco the proposals to the Government to relaunch the operators**

The fifth edition of **5G Italy – Towards the telecoms of the future** will cover the research, development, and implementation activities currently under way in Italy and the rest of the World and will also feature the projects linked to the National Recovery and Resilience Plan – NRRP (Piano Nazionale di Ripresa e Resilienza, PNRR), allocating major investments for the digitalisation of the Country.

In this transition process, 5G will act as one of the connecting points for electronic communications and will be a key factor to boost national economy, as well as drive economic growth
